

Anticon Sterile Gold Wipes

100% no-run interlock knit polyester with sealed edges and increased sorbency

Anticon Sterile Gold Wipes are a sterile version of Anticon Gold HeavyWeight wipes. Contec's Anticon Gold HeavyWeight wipes are made from 100% continuous filament polyester with a double-knit no-run interlock construction. The proprietary sealed edges reduces the amount of fibers released from the wipe. The wipes are cleanroom laundered and exhibit very low particle and fiber counts, helping to minimize contamination. These wipes are ideal for use in the most critical of cleanroom environments. Using patented textile technology Anticon Sterile Gold Wipes achieve superior capacity with a quick sorption rate. Ideal for disinfectant and solvent application and wiping to dry.

Anticon Sterile Gold wipes are ideal for use in the most critical aseptic environments. Anticon Sterile Gold is conveniently packaged in easy tear bags containing only 20 wipes per package to eliminate wastage. Anticon Sterile Gold is sterilized via gamma irradiation to a sterility assurance limit of 10^{-6} and a certificate of irradiation is provided with each shipment.
